

T bus connector

The Ixxat T-Bus connector is used to connect multiple CAN Repeaters together, to ensure reliable data transmission over long distances. It essentially acts as a hub, to create star and tree topologies and to extend the reach of your CAN network. It simplifies the wiring and helps maintain a robust and stable connection between various CAN devices in the network.

FEATURES AND BENEFITS

- connects multiple CAN Repeaters with DINrail backbone bus for expanded networks
- supports star and tree network topologies
- helps to simplify wiring and to reduce installation complexity

ORDER NUMBER	1.04.0073.00000
Contact resistance	4.4 mΩ
Contact plating	Cu alloy
Current rating	8 A (parallel contacts)
Rated voltage	125 V
Temperature range	-40 °C to 105 °C (dependent on the derating curve)
Length	3.81 mm

PIN ALLOCATION
